

READ BEFORE INSTALLATION

The following items have been included with your hood to aid in the installation process:

- Insulation washers to attach to the insulation tabs
- U nuts for the inner fenders
- Stainless steel bolts, washers and nuts to attach the headlight bezels

Bezel Mount Procedure

Install the headlights and turn signals first. Once those have been installed, hold or clamp the bezel in place and drill the four mount holes with a 3/16" bit. Use the included bolts, washers and nuts to attach.
